FRIDAY, APRIL 13, 1866.

THE United States District Judge at Memphis has decided that since the Peace Proclamation a Rebel cannot plead his parole, given on the final surrender of the Rebel troops, as a bar to a suit for treason, on the ground that as peace has been formally proclaimed by the President of the United States, courts of law can no longer take any cognizance of paroles, cartels, surrenders, orders, and other *military* documents or proceedings, but is remanded and confined to the strict letter of the civil law, upon which the unhappy prisoner must stand his trial, and in which he must find his only defense. That Peace Proclamation may therefore accomplish more than was intended by its author.

THE Reconstruction Committee will bring forward in the course of a few days an amendment to the Constitution in regard to representation, which is to be the basis of the settlement of the whole question of the admission of representatives of rebel States, which will receive the sanction of two-thirds of both Houses of Congress.

SECRETARY MCCULLOCH has decided to destroy all compound interest notes received for redemption or otherwise, as the first step towards his policy of contraction.

THE *Post* does not want CLYMER interrogated upon the Railroad question. That is one of the very best reasons why he should be interrogated.

Malaria Everywhere.

Rarely has there been a season as fruitful as this of malarious diseases. Not only on the praries and in the valleys of the West; not merely in all the old haunts of Fever and Ague and Billious Remittent Fever have these prostrating diseases been unusually virulent; but they have extended to towns and cities never before infested with them, and have even ascended the mountains and attacked thousands of people supposed to have been placed by the laws of Nature above their reach. Hence we are compelled to admit that a fatal element pervades the Universal Air this season, and should at once resort to the only approved preventative of its consequences, Hostetter's Stomach Bitters—a tonic so potent, an anti-septic so perfect, an alterative so irresistable, and a stimulent so pure, that it enables the human system to resist and baffle all the predisposing causes of disease. With the confidence that one clothed in incombustible garments might move among blazing buildings, the man who arms himself against malaria with this powerful *defensive medicine* may walk a fever-scourged district fearless of its insalubrious atmosphere. The intermittents and remittents at present so general in all parts of the country may be but the forerunners of a deadlier scourge now on its way westward from the far East. Prepare the system with Hostetter's Bitters for a successful battle with the mephitic causes of *all epidemics*. Be wise in time. Sold everywhere.—*New York World*, Nov. 6, 1865.

PRESIDENT'S PROCLAMATION AND HABEAS CORPUS.

The Official Army Register.

BILL TO PREVENT SMUGGLING.

Important Bills to be Taken Up.

ROBERTS ON THE FENIAN SITUATION.

Neutrality on the Border.

NEW YORK, April 12.—The *Herald's* Washington special says: In the United States District Court at Alexandria, Va., Judge Underwood presiding, an important decision was rendered yesterday. Thomas Garvin was imprisoned some time ago by the Provost Court under the Freedmen's Bureau law, and his counsel sued out an application for a writ of habeas corpus, under the supposition that the President's proclamation restored that writ.

An order has been issued by the War department to all the Assistant Commissioners of freedmen in the Southern States, instructing them to inform the people that the recent proclamation of the President did not release them from the operations and government of the military law. It is cautiously worded, and while not declaring martial law in force throughout the late insurrectionary States, is calculated and intended to create the popular impression that such is the fact. The order is kept close and not allowed to be given out for publication.

The *Tribune's* Washington special says: Colonel Thomas having been relieved from the Superintendency of Freedmen's Affairs in Mississippi, General T. J. Woods, commanding the Department, has been temporarily assigned to the duties of Assistant Commissioner of the Bureau in that State.

The first volume of the Official Army Register, published in compliance with an act of Congress, has just made its appearance. It was intended to embrace the names of all volunteer officers of the New England States, together with a brief statement of the history of the different regiments, promotions, discharges, dismissals, transfers, and a large amount of other data of interest to former officers of the volunteer force. The mistakes and omissions in this edition will probably lead to its suppression by order of Congress. The next volume, now being printed, will soon be issued, and is to embrace the same facts relative to New York and New Jersey regiments. The series will consist of eight volumes, which will be issued from time to time from the government printing office, and will be forwarded to all applicants on the receipt of one dollar per volume, the actual cost of the publication. No copies are printed for members of Congress.

A Washington dispatch says the Senate Committee on Commerce is proposing to report a bill for the prevention of smuggling at the seaports, and on the Canadian frontier.

WASHINGTON, April 12.—The bill fixing the peace establishment of the army, as received from the Senate, will soon be taken up for consideration in the House. Among other important measures, an amendatory internal revenue and a tariff bill will probably be reported in the House next week.

President Roberts, of the Fenian Brotherhood is in Washington. He is open in his condemnation of the movement on the Northeastern frontier, as, according to his views, it will not aid the cause of Irish Independence.

The President has approved and signed the Loan bill.

Orders were long ago received for the preservation of neutrality on the Northern borders, in view of the Fenian agitations.

THE FENIAN MOVEMENT.

Excitement Along the Border.

ESCAPE OF A FENIAN SCHOONER

Families Moving from Campo Bello.

NEW YORK, April 12.—The *Herald's* Eastport, Maine, special says: Since our last dispatch another English war ship—making in all three—and a revenue cutter, have arrived. During the last twelve hours several hundred Fenians have quartered themselves at Calais and other places. To-day a Fenian schooner escaped from a neighboring cove with a detachment of Fenians. The United States Marshal and the British Consul arrived at the spot just in time to be too late. There has been a mysterious disappearance of several cannon brought here by unknown parties. Cartridges are being manufactured here. There is tremendous excitement at St. Andrews, and volunteers are deserting, while numerous mysterious disappearances of numbers of Irishmen in the frontier towns are rumored. They are supposed to have joined the Fenians. Whole families are flying from the border.

CALAIS, ME., April 12.—There was much excitement yesterday and last night at St. Stephens, New Brunswick, opposite this city. The fears of a Fenian raid somewhere on the frontier have been strengthening for several days past, but the precise point of attack is not yet known. Reports from Eastport, yesterday, indicate that the Fenians were leaving there in squads. It is supposed they are bound for Calais, but up to this hour have not shown themselves here. About fifteen supposed Fenians arrived here last night from Bangor, and left this morning, by land, for Eastport. They could have gone by water at half the expense and time. From two to three hundred men were under arms at St. Stephens all last night, and all the approaches to the town are strongly guarded, and every preparation made to receive the Fenians. An attack was expected last night, but everything passed off quietly. The force at St. Stephens will be increased to-day to about five hundred men. Large numbers of Fenians are believed to be moving, but no definite information can be gathered.

EASTPORT, ME., April 12.—There is great excitement at Campo Bello Island. Families are moving over here and taking shelter in barns and outhouses. There was a great Fenian meeting here last night, at which speeches were made by B. Doran Killian and Major Linnat.

NEW YORK, April 12.—All sorts of Fenian rumors are circulating this morning. It is believed by some that Stephens has arrived in this country, and is somewhere on the northern frontier. It would be absurd to report the various rumors.

TORONTO, April 12.—The Cabinet meets daily, but the proceedings are kept from the public.

The report that cases of arms had arrived at Ottawa and mysteriously disappeared, is contradicted.

The whole force of volunteers at Montreal is called out twice a week.

Additional volunteers are arriving at Cornwall in anticipation of the trouble in connection with the arrest of Fenians.

The report that President Johnson is going to issue a proclamation in reference to the Fenian movement, is received with evident satisfaction.

Execution in New Jersey—Strike Among New York Car Drivers—Beggars Arrested—Spanish Pacific Squadron.

NEW YORK, April 12.—The execution of Wm. Grady, for the murder of Fergus Collins, took place yesterday at Elizabeth, New Jersey. Grady, the condemned, died firm, and to the last protested his innocence. He elicited from those who witnessed his execution a strong feeling of sympathy.

The drivers on the Third and Sixth avenue railroads yesterday struck for higher wages, and during the greater portion of the day on the former, and the entire day on the latter, traffic was stopped. The present rate of wages is but two dollars, and they demand fifty cents extra. The drivers on the other lines are determined to follow the example of those on the railroads above mentioned. Towards evening a compromise was effected with a few of the drivers on the Third Avenue Railroad, but as the larger portion held out, traffic was but imperfectly resumed. Some of the drivers were badly beaten by the alleged strikers.

From fifty to seventy-five beggars and vagrants have been arrested every day by the fifteenth and twenty-ninth precinct police, in pursuance of the recent order to that effect from police headquarters. The order is being obeyed by the entire police with great promptness, and the beggars are rapidly becoming scarce in our streets and thoroughfares.

A large Spanish man-of-war sailed some time ago from an English port for the Pacific coast. Admiral Omada, it is now known, goes out in her to take command of the Spanish Pacific squadron.

Silver and copper to the value of six hundred thousand dollars have been captured on the Pacific coast and landed in Spain.

THE PHILADELPHIA MASSACRE.

Particulars of the Terrible Tragedy.

ANOTHER VICTIM DISCOVERED.

The Murderer Still at Large.

DESCRIPTION OF HIS APPEARANCE.

PHILADELPHIA, April 12.—Full reports of the Deering family murder show it to have been one of the most horrible butcheries of the age. The *Press* reporter says that the body of the mother, and those of her four children were found in one corner of the barn, near a small out-house which communicated together by a hole, through which the remains of the murdered victims were brought to view. It seems as though the bodies were thrown into one heap, pell mell, and then covered over with dirt and hay.

The unfortunates were most terribly mangled about their heads. A new, sharp, and bloody axe was found in the rear of the dwelling, which had been used to do the bloody work. All of the victims seem to have been struck on the left side of the forehead, just above the eye, with the heel of the axe, and then with the blade of the murderous weapon the demon finished his horrible work by cutting the throats of all. The throat of one of the little boys was so horribly cut that his head dropped off when his body was lifted up. The other boy when discovered had his right arm crooked and partly raised, as though attempting to ward off the blow that sent him into eternity. The mother was defending her baby from the attack of the demon when she was mercilessly struck down. The babe had received an awful blow on the upper part of the breast, near the shoulder, almost severing one of its arms, and also another sharp cut on the side of the head.

Probably, the most correct of the surmises expressed is, that all this horrible work was done on Saturday morning, during the absence of Mr. Deering. His body and that of Miss Keating, his cousin, were found alongside of the barn not far distant from the spot where the others were discovered. The bodies of Mr. Deering and Miss Keating were covered over with hay, with one of his feet partly sticking out. A little boy, aged fourteen years, who lived with the family, and worked upon the farm, is missing. It is believed that he was also murdered, and his body thrown into a deep well, or one of the many ditches that abound in that section of the country.

The well on the premises was partly searched last night, but no bottom could be reached, and the ditches in the vicinity of the house were also examined, without discovering the body of the missing boy. The search is being resumed this morning with renewed vigor. The *Ledger* says: The more this murder is examined into, the more astounding it appears. A mother and her four children are butchered, it is supposed singly, after being enticed from home, and without leaving any marks of the hellish deed behind, and then, upon the arrival of the husband and niece, for them to have been dealt with in the same manner, and still no spot of blood found in the house; it is indeed surprising.

The only rational theory that we have heard is that upon the arrival of Mr. Deering and his niece, he discovered that his family were not in the house, started after them and after leaving the house was met by the murderer, and slain. The niece then, it is thought, followed her uncle, and was in turn killed in the same manner. Unfortunately, it appears that the name of the supposed murderer is not known by any of the neighbors, nor can any description of him be given. It is only known at present that he was a German laborer. The excitement in regard to this horrible murder in the lower section of the city is intense.

LATER.—An additional victim in the horrible tragedy down the Neck was discovered this morning. The body of the missing boy, Cornelius Cary, was found under a hay stack with his head smashed in with a hammer and his throat cut. The clothes of the supposed murderer have been found. They are stained all over with blood.

The *Bulletin* gives the following description of the supposed assassin: A German named Anthony, or Anterne, aged between 28 and 30 years, height five feet eleven inches, very muscular, mustache and great pimples on the face, round shouldered, walks slowly, talking long strides, and speaks imperfect English. The police are making every effort to arrest the murderer.

The following is the most accurate description we have been able to learn of the supposed murderer of the Deering family: His name is Antone; his last name is unknown. He is believed to have been in the army. He was formerly from Brooklyn. He is 5 feet 11 inches high, 25 or 28 years of age; round shoulders; no side whiskers; a light scar; a short thin light mustache, inclined to curl at the ends. He has a downcast look, and weighs one hundred and seventy-five or eighty pounds. He is loosely made and has a shuffling gait. He has no thumb on the right hand. He speaks broken English. The property missing consists of two revolvers, one large and one small one, a musket, shot gun, black frock coat, black satin vest, black pants, brown overcoat, and a pair of long outside boots, two $500 compound interest notes, one $20 do., two gold rings, one set with a purple stone, one gold chain with long links, and a chased ring with four ten cent pieces on the end.

It was referred to the Committee of Fifteen.

Messrs. Poland, Johnson, Fessenden, Sumner, Brown, and McDougall all made appropriate eulogies and remarks.

The Senate then in respect to the memory of the deceased Senator, adjourned.

HOUSE.

Mr. Washburne, of Indiana, offered a resolution, which was adopted, calling on the Paymaster General to furnish the House with the names of paymasters in the army against whom stoppages are standing, with the nature and cause of the same.

On motion of Mr. Farnsworth, the vote on the adoption of the resolution was reconsidered, after considerable debate on the resolution bearing on the call pending in the House for the relief of paymasters.

The resolution was referred to the Committee on Military Affairs.

The next business in order during the morning hour was the bill for the relief of paymasters of the army.

Mr. Conkling moved a substitute for the bill, that the bill and pending amendments be recommitted to the Committee on Military Affairs.

The Committee on Foreign Affairs reported back the Senate bill to authorize the President of the United States to transfer a gunboat to the government of the republic of Liberia, which was considered and passed.

The New Almedin Troubles—Advance in Quicksilver.

SAN FRANCISCO, April 11.—Quicksilver has advanced 10c a pound in consequence of the troubles at New Almedin. Six of the rioters there have been arrested, and the rest will be shortly.

The proprietors of the New Almedin mines say the recent disturbance grew out of the fact that seventy-one squatters not in the employ of the Company refused to comply with the order to sell their dwellings to the Company and move elsewhere. The squatters drove the miners from work. The ringleaders were arrested, and warrants had been issued for the others. The work at the mines was still suspended. The rioters were on trial to-day at San Jose.

There was a further shipment of $500,000, not manifested per the Golden City, which sailed April 10th, on government account.

The steamer Del Norte, from Eureka, with $7,000 in treasure, and the ships Bunker Hill and Davis, from Boston, have arrived.

Sanitary Measures Adopted.

MONTREAL, April 12.—The greatest activity prevails in all Canadian cities to keep out the cholera. Precautionary and sanitary measures are being taken in anticipation of its approach.

BOLD BANK ROBBERY.

Army Mortality During the War.

NEW YORK, April 12.—A very bold robbery occurred in the Sub-Treasury building yesterday. Mr. Condell, the messenger of the Bank of America, collected a gold certificate for five thousand dollars, and about four thousand dollars in currency, at the cashier's desk. He then went to another part of the building to see one of the clerk's, but not finding him, proceeded to the Postoffice to put some letters in the mail, and on his way back to the bank stopped at the Sub-Treasury again. On entering the Pine street door, a strange man rushed past him and slammed the door violently in Condell's face, which knocked him senseless and threw him into a fit. This man then rifled his pockets of the money, and when a crowd had collected, the same party said he was trying to find something to identify the fallen man. In the confusion, the robber made his escape and the Messenger was taken to the hospital, where he now lies insensible.

Statistics, mercantile and marine, show a gratifying increase in American shipping. There are in the foreign trade from this port alone nine hundred and six American vessels exclusive of California and Havana steamers, with an aggregate tonnage of 624,300.

The Provost Marshal General has completed a careful compilation from the muster rolls of all the deaths in battle, from wounds, and from disease, in every regiment and company of every loyal State from the beginning to the close of the war. Of this number, 5,220 commissioned officers, and 90,886 enlisted men have been killed in action or died of wounds, while 2,321 commissioned officers and 182,329 enlisted men have died of disease, or in a few cases from accident.

Speech of Gov. Hamilton, of Texas.

NEW ORLEANS, April 12.—Gov. Hamilton, of Texas, made a speech at Austin recently, in which he opposed some ordinances passed by the convention as not being republican or meeting the demand upon their constitutionality. They had passed but one ordinance which accorded fully with the President's policy, and that was declaring the war debt null and void. He appealed from the action of the Convention to the people. The Convention had passed an ordinance exempting all persons who under authority of the civil or military power had inflicted injury upon persons during the war, from being held accountable; such ordinance would not and should not shield them. He called upon the loyal people of the State to work together. He believed provision should be made to admit the negro to vote if he became elevated and came up to a certain standard.

The Convention had refused to give blacks any quota of the school fund, or make any provision for their education. They had, however, been taxed to assist the whites in sending their children to school. He intended to announce to the people those who had worked against the interest of the State.

The Russian Forces.

NEW YORK, April 12.—The Cracow correspondence of the London *Post* says: According to the intelligence received here from Volhyrna, sixty battalions of Russian infantry, twenty-six squadrons of cavalry, and thirty-six pieces of artillery are placed in Echelon. From Volhatschisk to Novosilitze, it is three days march. From the Austrian frontier to the Moldavian frontier, starting from Novosilitze, there are not, it is stated, more than fifteen men, but on the other hand, forty-five battalions, twenty squadrons, and one hundred pieces of artillery are stationed in the districts, not more than two days march from Balto. These might reach Terespol in a few hours, and thence cross the Moldavian frontier, if necessary.

CITY AND SUBURBAN.

Tableaux of the Rebellion.

City Hall was crowded to overflowing last evening by a highly appreciative audience to witness the Grand National Allegory and Tableaux, for the presentation of which Mr. J. M. Hager, in co-operation with the pupils of the Western University, Pittsburgh Female College and other leading schools, has been actively engaged for some weeks. The exhibition, which is given for the benefit of the "Widows' Home," was a grand success.

It would be impossible for us to give any idea of the grandeur and sublimity of the representation within the limits allotted to us; and it is doubtful if we could within any given space. To be appreciated it must be seen. The audience last night testified their appreciation and delight by the most enthusiastic applause.

The whole rebellion from its inception to the return of the "bronzed heroes" who crushed it out is very beautifully rendered in the allegory. The principal characters are, Goddess of Liberty, Truth, Justice, United States represented by thirty-six young ladies dressed in white, with sashes of different colors; Hungarian, Italian, Irishman, Negro boy, Sherman's bummers, and Army of the Potomac. The scenes are, Secession, return of the erring sisters to endeavor to carry the Border States out of the Union, and their exit; war, foreign intervention, famine and pestilence.

The costumes are beautiful and appropriate, and the young ladies and gentlemen performed their respective parts admirably. Miss T. A. Hager presides at the piano with great dignity and performs splendidly.

We have no doubt that the Tableaux will be sustained for four or five nights. The object is good and the exhibition meritorious. The "grand Tableaux of Peace" with which the entertainment closes is one of the most gorgeous things we have ever witnessed. It can be studied, but not described.

Robbery at a Boarding House.—A robbery was committed about noon yesterday by some party unknown, at the Miners' Home, on Grant street, near Third, by which Thomas Eagan, one of the boarders was relieved of a watch valued at forty-five dollars, a hat, and also five dollars in money. The trunk in his room was broken open and the articles and money abstracted therefrom. The thief is suspected, and efforts will be made to secure his arrest. It is believed that he belongs to a gang who have lately made this city the base for their nefarious operations.

In a Bad Fix.—Michael Krapp yesterday appeared before Alderman Taylor, of the Fifth ward, and preferred a charge of assault and battery against John Krapp. After a hearing and the case had been disposed of, John to revenge himself informed against Michael for selling liquor on Sunday, and also for keeping a disorderly house. The latter was held for a further hearing. Evidently, John is one ahead, and Michael has got himself into an ugly fix.

Accidents.—Mr. Joshua Splane, on Wednesday, while pursuing some boys who were carrying off some chair stuff in the rear of his establishment, stumbled and fell, breaking a leg.

A lad named Galbraith, employed in a brick yard in the Ninth ward, had his right hand badly mutilated, on the same day, by its being accidentally caught in a crushing machine. Both parties are doing well.

Dr. F. Lemoyne, lately of Washington, Pa., and formerly Assistant Surgeon of the 9th Pennsylvania Reserves, has opened an office and will devote himself to his profession in this city. From a long personal acquaintance with the Doctor we take pleasure in commending him to public favor.

Havana and New Orleans.—We direct attention to the advertisement of the Baltimore and Havana Steamship Company in another column, announcing the sailing of steamships for these ports.

Among the confirmations by the Senate, on Tuesday last, was that of Col. J. B. Switzer,

Meeting of Allegheny Councils.

A stated meeting of Allegheny Councils was held last evening, at their rooms in City Building, Diamond Square. There were present, Messrs. Drum, Hall, Huckenstein, Irwin, Myler, Patterson, J. D. Smith, C. C. Smith, A. D. Smith, Wm. Smith and President McBrier.

The minutes of the previous two meetings were read and approved.

Mr. A. D. Smith presented the quarterly report of the City Controller. It covered a number of bills against the city. It appears from the report, that the claim of Nicholas Voeghtly, against the corporation for missing bonds, had been paid, amounting to $2,624.88. The amount reported as in the Treasury, on the 31st ult., was $9,286.55; warrants outstanding, $407.98. The report was accepted, and the Controller authorized to certify warrants for the payment of the bills as reported.

Mr. Thomas read a report from the Street Committee. It contained a resolution authorizing the Superintendent of the Water Works to thoroughly cleanse all the streets, lanes and alleys of the city, and to use the city water for the purpose. The Committee stated that the petition of Bissell & Co., for the appointment of viewers to assess damages alleged to have been sustained by them in grading Robinson street was not granted, as there is no law providing for compensation for damages sustained by grading streets. Resolutions also accompanied the report for the opening of North avenue to Bidwell street; one instructing the City Solicitor to enter and maintain for the vacation of so much of Divine alley as is not taken up by the proposed extension of North avenue. In relation to the contract of James Heastings, the committee offered a resolution instructing them to enter into a new contract for the grading of Ridge street by Heastings, at thirty-five cents per cubic yard for that part of the work now done, and fifty-six cents per cubic yard for that part yet to be done. The report also covered ordinances for the grading and paving of Pike street, Veto street, Union avenue, Irwin's avenue, Centre street and Graham alley. The report was read and accepted, and the resolutions and ordinances adopted.

A communication was read from Solicitor Woodward, relative to the certificates of taxes to be entered up for judgment. Read and referred to the Committee on Finance.

A bill of S. McKnight, for $6 10, for services in the Wilson Island case, was read and ordered to be paid. Also a bill of James McMillen, for printing, was ordered to be paid.

Mr. Myler offered a resolution, instructing the Committee to have a new floor put in the Columbia Engine Company's house. Read and adopted.

Mr. Drum presented a report from the Water Committee, which was adopted.

Mr. Drum offered a resolution providing for the designation of one or more common grounds for the deposit of dirt and ashes; also, authorizing the Street Commissioner to provide for the drainage and leveling of the common grounds. The resolution was adopted. Non-concurred in by C. C., resolution adhered to and Committee on Conference appointed.

Mr. Drum presented a bill from W. S. Eyster for $146.20 for oils, and offered a resolution ordering it to be paid. Carried.

Mr. Myler offered a resolution authorizing the Street Committee to have graded Mary street, from Ohio to Avery street. Read and referred to the Committee on Streets, with power to act.

Mr. A. D. Smith presented a petition for the grading and paving of Allegheny avenue. Read and referred to the Committee on Streets, who are instructed to report an ordinance upon the subject.

Mr. Drum offered the following resolution: *Resolved*, That a standing committee of five be appointed and instructed immediately to prepare some plan or system by which the city may be put in proper sanitary condition, and report to Councils as soon as possible. Read and adopted.

Considerable discussion ensued upon the railroad resolution fixing the grade of the Western Pennsylvania Railroad, reported from Select Council. The debate was cut short by adjournment, without any action having been taken upon the resolution.

Common Council.—Present: Messrs. Brown, Cunningham, Ingham, Hanna, Falhauber, Miller, McGraw, McDonald, McNeil, Reed, Riddle, Walter and President Benney.

The minutes of the two preceding meetings were read and approved.

Mr. McDonald presented a petition from the citizens of the Second ward, praying that Davis alley, between Taylor avenue and Jackson street, be opened and paved. The petition was read and referred to the Committee on Streets.

Also, a petition from the residents of the Fourth ward, praying for the grading and paving of Avery street, which was read and referred to the Committee on Streets.

Mr. McNeal offered a series of resolutions providing for the appointment of a committee of one member from each ward, and two persons from each ward not members of Councils, to be selected by the Committee of Councils, to devise a plan for cleansing the city and removing whatever has a tendency to invite disease, and report the same to Councils at a special meeting to be held on Thursday evening, 19th inst. The resolutions also authorize the Street Commissioner to have all the streets and alleys in the city immediately cleansed, and kept in good sanitary condition. The resolutions were adopted, and Messrs. Ingham, McNeal and Heckadorn appointed on the committee from C. C. S. C. non-concurred.

Mr. Hanna presented the report of the Committee on Markets, together with the following report of the Weighmaster and Clerk of Markets:

John S. Edgar, Diamond Scales	$211 13
W. F. Anderson, Second Ward Scales	255 99
Duncan Dallas, Clerk of Markets	752 50
Total receipts	1,219 62

The Committee also presented an ordinance fixing the salary of the Weighmaster of the Diamond scales at $800 per annum, and the salary of the Weighmaster of the Second Ward scales at $600 per annum. The ordinance was read three times and finally passed.

Mr. Megraw presented a report from Mr. Geo. Hutchinson, Wharf Master, which was accepted and ordered to be filed.

Mr. Reed, from the Committee on Engines, presented the monthly report.

The Committee recommended the payment of a bill, amounting to $900, for repairs to the Gen. Grant engine house.

Mr. Hanna opposed the payment of the bill, and stated that as the members of the company had contracted the debt without authority from Councils, they should be forced to pay it.

The report, so far as related to the payment of the bill, was then laid on the table. S. C. non-concurred, and a resolution refunding the money received by the city from the steamer Gen. Grant for pumping out cellars was adopted, with the understanding that they would settle the bill for repairs to the engine house. C. C. receded and concurred with S. C.

Mr. McNeal, from the special committee appointed by Councils to confer with the Solicitor of the Western Pennsylvania Railroad Company in reference to the grade of the streets crossed by their track, reported that the company would change the grade of said road to suit Councils, but would not agree to pay damages for any injury resulting to adjoining property. The committee recommended that the grade fixed and proposed by the City Regulator for East lane and Chestnut street, between Liberty and Main streets, and for Sycamore street, between Main and Ohio streets, be the grade offered to the company for their adoption. The report was accepted and the recommendations of the committee adopted.

Mr. Riddle offered a resolution directing the Committee on Gas to have the names on the corners of the most prominent streets, which was read and adopted.

Mr. Ingham offered a resolution instructing the Superintendent of Water Works to have a fire plug on Rebecca street, opposite Stevens alley, removed to the curbstone. Referred to Committee on Water.

On motion adjourned.

Testimony of Respect.

At a meeting of the Board of Directors of the People's Line of Steamers, held at Brownsville on the 10th inst., the following resolutions of respect to the memory of the late President of the Company were adopted:

Resolved, That by the death of William H. Clarke the Company have lost one of its most efficient and honorable members, and the community an enterprising, noble and generous hearted man, but we bow with humble resignation to the will of Him who doeth all things well.

Resolved, That the bereaved family have our condolence and sincere sympathy for their irreparable loss. We rest in hope that their loss was his eternal gain.

Resolved, That these proceedings be placed upon our minutes, and be published in the Brownsville and Pittsburgh papers, in testimony for our high regard for the character of the deceased.

R. T. ABRAMS, Secretary.

Amusements.

PITTSBURGH THEATRE.—Mr. Brougham this evening takes a benefit, appearing in two of his most prominent characters—in comedy and farce. He will personate Capt. Murphy Maguire, in the "Serious Family," and also take a part in a laughable piece written by himself entitled "Love and Murder." Many will doubtless be anxious to see him in the former character, in which he is said to have no superior.

OPERA HOUSE.—Miss Mary Provost will receive a benefit this evening, and makes her appearance in the "Female Gambler." The "Persecuted Dutchman" will be the afterpiece. The fair beneficiary should receive a crowded house to-night, and we trust she may.

District Court.

In the case of J. P. Learn vs. the School Directors of Mifflin county, reported yesterday, the jury found a verdict of $310.50 for the plaintiff, subject, however, to the opinion of the Court upon questions of law reserved.

The next case called up was that of Mrs. Mary Giffen vs. Keller, Smith & Co., action to recover damage for trespass. It is alleged that the defendants in the case have trespassed upon plaintiff's coal lands, and dug a considerable quantity of coal therefrom. The defendants have lands of their own which adjoins that of the plaintiff, and it is stated in mining they had crossed the line. On trial.

Removed His Office.—Major A. M. Brown, Attorney at Law, has removed his office to 114 Fifth street, one door below his former office. We stepped in yesterday afternoon and found the Major's new headquarters fitted up in very elegant style. In addition to its superior neatness and comfort, the present office is more accessible than the former one, as it is on the first floor. Major Brown has already attained an enviable reputation as a lawyer. There is no more studious or attentive advocate at the Pittsburgh bar. His evenings are spent almost uniformly in his private library at his own house. No case ever suffers detriment in his hands from neglect.

Accidents by Lightning.—The Munson Copper Lightning Rod has a wide-spread reputation as a most efficient safeguard in thunder storms, and we are pleased to learn that Messrs. Lockart & Co. commences its manufacture in this city. This firm will supply lightning rods of either copper or iron. See

Important Arrest.

The reader will remember that during the recent term of the Criminal Court, a colored man named R. D. Turley, proprietor of a barber shop in the Ninth ward, was convicted on a charge of receiving stolen goods, and that Wm. Topper, subsequently convicted on a charge of burglary, testified on the trial that he had entered into an arrangement with Turley to receive the goods stolen. Immediately after his conviction, Turley, who was out on bail, obtained permission to visit his home before being sentenced. A bail piece for his arrest was issued a few hours afterwards and placed in the hands of officer Hoffman who on reaching Turley's house, found the bird had flown, and the line of retreat remained unknown for some time. Several days since, officer Hoffman obtained information which led him to suspect that the fugitive was in Harrisburg, and he accordingly visited that city. A thorough search was made but Turley was not to be found. The officer then visited Somerset, and his perseverance was rewarded by discovering Turley quietly at work in a barber shop. The officer took him in custody and arrived in this city on Wednesday night with his prisoner in charge, who is now in jail awaiting sentence of the Court.

The Canal Sewer.—The Street Committee of Allegheny have just completed the construction of a sewer or drain in the old canal bed. The bridge on Robison street was taken down, and the stones from the abutments, which would have served admirably in the construction of the drain, were carried off and sold, while the timbers, which were none too sound, were used in building the sewer. To make matters worse, the drain was only made twenty inches in width, while its whole extent in length is one hundred feet. How long this insubstantial structure will last, or how long before it will be choked up with mud, it will require but little mental arithmetic to determine.

A Missing Trunk.—A young lady residing in Brownsville, who arrived in this city yesterday on the steamer James Rees, appeared at the Mayor's office and stated that her trunk, containing, a quantity of valuable clothing, besides four hundred dollars in money, had been stolen. Inquiry was made of the clerk on the boat, when it was ascertained that the missing trunk had been put ashore during the night at a landing some distance above the city, a passenger having claimed it. The young lady placed the matter in the hands of an attorney, and search for the trunk is now in progress.

Assault.—Henry Langkamp yesterday morning made an assault upon Louis Cella, saloon keeper on Fifth street, in the Market, by kicking him and throwing a large stone at him. The cause of the disturbance was an old grudge which the assailant entertained against him. For indulging in this recreation, Langkamp was arrested, brought before the Mayor, and held to bail for his appearance at Court.

Fire on Grant Street.—About 4 o'clock yesterday morning a fire broke out in the dwelling occupied by S. F. Von Bonnhort, Esq., corner of Grant and Fourth streets, but the flames were extinguished before any material damage was done to the building. The fire occurred in the bath-room, but how it originated cannot be ascertained. Some carpets were burned and three valuable birds suffocated.

Barn Burned.—The barn of Mr. Jacob Nagle, of Allegheny township, Cambria county, was entirely consumed by fire on Tuesday, the 3d inst. Five hundred bushels of oats, a large quantity of hay, two colts, two calves, wagons, sleds, harness, &c., was also consumed. Loss about $2,500. Mr. Nagle had his barn burned about two years ago. No insurance. It was the work of an incendiary.

The Titusville *Herald* says that the First National Bank of Titusville has opened its doors again and resumed business with the full confidence of its patrons. It adds, however, that considerable depression exists among the depositors of the Petroleum Bank. After waiting ten days they can get no indication of what they have to expect.

Eye, Ear and Catarrh.—We refer our readers to the advertisement of Dr. Gardner, who will again visit this city on Tuesday, April 17th, and remain until the 21st. Office at the Monongahela House. Those who are suffering from deafness, disease of the eye, or catarrh should avail themselves of the opportunity of consulting him. tf

LIGHTNING RODS.

PITTSBURGH
LIGHTNING ROD WORKS.
LOCKHART & CO.,
Manufacturers both of Copper and Iron
Lightning Rods,
DUQUESNE WAY,
Below Hand St. Bridge, Pittsburgh.

Professor JOSEPH HENRY, Secretary of the Smithsonian Institute, acknowledged one of the most scientific men of this age, says no damage can ensue to a building protected by a good lightning rod, however many discharges may fall upon it. A good rod, by its powerful induction, diminishes the intensity of the lower part of a cloud, and therefore lessens the number of explosive discharges; but if a discharge takes place from the cloud, due from any cause whatever, it will be attracted from a given distance around the rod, and transmitted innoxiously to the earth.

We call special attention to "Munson's Copper Tubular Lightning Rod, with spiral Flanges." This rod has received the First Premium at the State Fairs of New York, Pennsylvania, Iowa, Illinois, Indiana, Ohio and Connecticut, and at National Fair, Maryland Institute, American Institute of New York, Mechanics' Institute of Cincinnati, and at very many County and District Fairs in all sections of the country. It has been successful in every contest, and has been extensively used by the most intelligent people wherever introduced.

It is a well established scientific fact that copper possesses eight times the conducting power of iron, and all professors of learning hold that only the *surface* of a conductor is used by electricity. Then, Munson's rod, possessing a surface two-and-a half times greater than the iron rod, it follows that it is equal to twenty iron rods when in their best condition. Iron soon rusts, and thereby loses its usefulness, while copper will not rust, and always retains its power of conduction. The tubular, spiral shape of Munson's rod gives the greatest strength at the smallest possible cost, and makes it superior to a solid copper rod three inches in circumference. The manner of connecting the joints is such that perfect continuity is formed from one end to the other, and this rod will remain a good protection against the disasters by lightning as long as the building endures upon which it is erected.

To show the estimate in which this rod is held by such scientific persons, and others, who have examined it, we append a few of the many indorsements it has received:

From Dr. B. D. Buckman, Professor of Chemistry, Philadelphia.—"Nothing can be hazarded in saying that Munson's is the best rod before the public.

From Prof. Brown, late Indiana State Geologist.—"I do not hesitate to commend Munson's rod to all who wish a perfect protection from accidents by lightning."

From the late Col. Andrews, President of Kenyon College.—"I do not know how a rod could be made to combine more of the requisites of protection against lightning. It will certainly go into general use."

From Prof. Young, lately occupying the Chair of Natural Science, N. W. Christian University.—"I regard it as superior to other rods and recommend it to the public."

From Rules of Indiana Fire Insurance Co.—"When the building is protected by Munson's Copper Lightning Rod, five per cent. will be deducted from the premium note. No reduction for iron rods."

From Wm. Henderson, Esq., President Indianapolis Insurance Co.—"It is a rule of this company to charge less premium on buildings protected by the Munson Rod. I would not consider the lives of my family safe without one of the rods on my residence."

From the New York Tribune.—"Very novel, evidently cheap, and we should judge a very efficient lightning rod."

From the Clarksville (Tenn.) Jeffersonian.—"It is constructed upon the most approved scientific principles, and every house should have one upon it."

From Secretary of Keokuk Board of Education.—"Being convinced since the partial destruction of the High school building by lightning, that the iron rod attached thereon are insufficient, our Board have directed that Munson's Copper Rod be put up forthwith."

Wholesale dealers supplied with Iron or Copper Rods at lowest rates. Our Copper Rods are very popular among the people, and peddlers will find them conveniently carried and easily put up. Our Iron Rods are of the most approved kind.

Orders for the erection of rods on buildings in this vicinity may be sent through the mail, or left at our office.

GOVERNMENT BY FORCE.

Two elements always enter into the construction and working of government—Physical Force and Public Opinion. All governments, no matter how variously their powers may be organized, nor by what nomenclature they may be described, as imperial, monarchial or republican, whenever occasion exists, and the prevailing feeling among the people acquiesces, use Physical Force to its utmost extent. No nation, of equal population, since time began, ever wielded Physical Force with so unrelenting vigor, or with more terrible effect, than the government of the United States during the last five years. It was on this point that our system was adjudged in Europe, and measureably at home, to be defective. But the demonstration is absolute and irresistible that our organization is capable of putting into operation a larger array of physical energy than any imperial monarchy, ruling over a corresponding amount of population, that now exists, or has ever existed. And this shows the incompatibility of describing a republican government as mainly or peculiarly a government of Opinion.

All governments rest on Physical Force. Without material power at the command of the Administration, law dwindles from a rule of action into simple advice. Each policeman on our streets feels and knows that he represents the aggregate Physical Force of the Commonwealth. Every vagabond and criminal is penetrated by the same conviction. Lock-ups, jails, penitentiaries and gibbets are at once symbols and instruments of the extreme Physical Force necessarily inherent in our government.

All governments are bottomed on Public Opinion. It was said of Russia, years ago, by an eminent publicist, that it was "a despotism tempered by assassination." This has often been illustrated in the history of that country. Assassination is the peculiar form in which Public Opinion, outraged beyond endurance, expresses itself.

In France, also, the supreme power is nominally lodged in the hands of one man, yet no Government in all the world is more sensitive to Public Opinion than this autocracy; or watches the manifestations of it with intenser solicitude. An American President defies Public Opinion with a hardihood that no French Emperor dares to imitate. The extreme symbol of public opinion in France is a barricade.

All through our rebellion the English Ministers were anxious to do us what harm they could. In this they obeyed the instinct of that powerful oligarchy whose representatives they were. They were greatly impeded and finally overawed by Public Opinion. Starving Lancashire spinners, constrained by their patient suffering the peerage to obey their will. So, still more recently, the Ministry was quite willing to sanction the barbarities of military commandants in Jamaica on the insurgent population, but Public Opinion compelled the suspension of the Governor and a searching scrutiny into his conduct and that of his subordinates.

Indeed, it is as safe to conclude, after what has been witnessed for three-quarters of a century, that Public Opinion in Europe favors monarchical government about as absolutely as in the United States it demands republican forms; and that the power of Public Opinion is brought to bear on the monarchical governments there existing, not as directly and efficiently as in this country it operates on our government, but with as much facility as the bulk of the people deem advisable, and certainly with a potency that so far modifies the theory of absolutism as to admit of great ameliorations.

The fact is obvious, that Public Opinion in one country differs widely from Public Opinion in another; nay, that Public Opinion in different parts of the same country presents the most striking antagonisms. In South Carolina, for half a century preceding the war, while the form of government was ostensibly republican, the actual government was purely despotic. This despotism was not restricted in its operation to the black inhabitants. It was just as absolute in its sway over the white population. No matter what a white man's rights were under the federal Constitution, or what his abstract prerogatives under the State Constitution; Public Opinion was stronger than both Constitutions, and became both the measure of his practical liberty and the relentless arbiter of his destiny. Massachusetts had a clear legal right to appeal in behalf of some of her citizens from the Courts of South Carolina to the Courts of the United States. She had an undoubted legal right to send Mr. Hoar down to Charleston, as her attorney, to take and prosecute that appeal. But such was the manifestation of Public Opinion that only by flight did he save himself from outrage, perhaps from death. The despotism of Public Opinion was exhibited in like manner all over the South. It mattered not in the slightest degree that the Supreme law of the land guaranted Freedom of Speech and of the Press. Both were annihilated as completely as at Constantinople or Bokhara. Nor was it necessary that a man, happening to be in a Southern State, should there affront Public Opinion by oral or printed words. It was sufficient to expose him to insult and outrage to have it known that in other States, far away, he had spoken or written offensive words; or was known or strongly suspected of entertaining offensive ideas in his private meditations.

Hence the indispensability of efficient securities for loyal men, white and black, who live in the Southern States. It is futile to talk of guarantees for them in the Constitutions and Laws of the rebellious States. Such guarantees are worth no more now than before the war. What is needful is to overlap, so to speak, Public Opinion in the lesser half, numerically, of the Union, by a greater Public Opinion prevailing in the other and larger part. This can only be done through the intervention of Congress. At best it can only be done to a degree; but to the degree that it can be done, it is desirable that it be done at once and effectually.

IS IT A STORM?

Not a few men, and some of genuine sagacity and forecast in business affairs, are apprehensive of a general financial crash. Their fears have root in the expansion of the currency and the consequent inflation of prices; the spirit of speculation engendered by a considerable period of unprecedented prosperity; the immense importation of foreign goods, which must be paid for largely either in coin or government securities—the latter involving a necessity for the regular shipment of specie to meet the accruing interest; and the contraction of nominal values inseparable from working back to a sound financial basis, where a dollar means a hundred cents.

One or two points are overlooked by these desponding persons. The people of the Northern States are really richer to-day than ever before. Notwithstanding the burdens imposed by the war, more money has been made by them during the last five years than in any preceding ten years. As a whole, moreover, business is on a better foundation. Multitudes of individuals have managed to get out of debt; paying off old obligations in cheap currency. There are fewer judgments and mortgages outstanding and unpaid than ever before. Merchants are not in debt, as they used to be. The system of credits has fortunately been contracted; so that there are fewer "lame ducks," however many dead ones President Johnson may fancy to exist, than there used to be.

Hence, it has happened that astounding defalcations, forgeries and failures, which, in former years, would have so shaken commercial confidence as to produce a common collapse, have caused scarcely a ripple in business circles. Of course, some houses are embarrassed and straitened. Failures have occurred and others will follow. All business men are not clear-sighted, provident, and cautious. Prosperity elates some folks so that they expand beyond the bounds of prudence, and involve themselves in inextricable trouble.

No doubt losses are to be incurred in the process of getting down to the solid basis of specie. But business men, in general, can afford to submit to losses, and yet not be ruined. They have made extraordinary gains, and in the reasonable expectation of having to part with a portion of them in in the inevitable fall in prices.

Just now a special consideration is forced upon attention. There are indications that a season of pestilence is soon to fall on the country. How pervasive the plague may be, or how fatal it may be, neither human intuitions or ratiocinations will enable any one to foretell. Should it spread far and wide, and prove malignant, it may cause a serious stagnation of business, and, combined with other instrumentalities, lead to a commercial revulsion.

Aside from this consideration, if Congress shall take such wise action as now seems probable, in so adjusting the impost to the excise duties as to afford our home industry that measure of protection which was originally intended, and is indispensable, there appears to be no good and sufficient reasons for anticipating a general break-up.

It is doubtless true, however, that under the existing connection between governmental credit and the basis of banking, a financial crash, once precipitated and accelerated by prevailing unsoundness in commercial and manufacturing circles, would be much more disastrous than under any system which has obtained hitherto.

It is certainly the part of wisdom for business men to proceed, just now, with circumspection. But there is such a thing as producing by over-caution the very consequences sought to be avoided.

THE CIVIL RIGHTS BILL.

The following is the bill as it passed both Houses, "the objection of the President to the contrary notwithstanding." The vote in the Senate was 33 to 15; in the House 122 to 41:

Be it enacted, &c., That all persons born in the United States, and not subject to any foreign power, excluding Indians not taxed, are hereby declared to be citizens of the United States, and such citizens of every race and color, without regard to any previous condition of slavery or involuntary service, except as a punishment for crime whereof the party shall have been duly convicted, shall have the same right in every State and Territory to make and enforce contracts, to sue, to be sued, be parties and give evidence, to inherit, purchase, lease, sell, hold and convey real and personal property; and to full and equal benefit of all laws and proceedings for the security of person and property as is enjoyed by white citizens; and shall be subject to like punishment, pains, and penalties, and to none other, any law, statute, ordinance, regulation, or custom to the contrary notwithstanding.

Sec. 2. And that any person who, under color of any law, statute, ordinance, regulation, or custom, shall subject, or cause to be subjected, any inhabitant of any State or Territory, to the deprivation of any right secured or protected by this act, or to punishment, pains and penalties on account of such person having at any time been held in a condition of slavery or involuntary servitude, except for the punishment of crime whereof the party shall have been duly convicted, or by reason of his color or race, than is prescribed for the punishment of white persons, shall be deemed guilty of a misdemeanor, and on conviction shall be punished by a fine not exceeding $1,000 or imprisonment not exceeding one year, or both, in the discretion of the Court.

Sec. 3. That the District Courts of the United States, within their respective Districts, shall have, exclusively of the Courts of the several States, cognizance of all crimes and offenses committed against the provisions of this act, and, also, concurrently with the Circuit Courts of the United States, of all causes, civil and criminal, affecting persons who are denied, or cannot enforce in the Courts of judicial tribunal of the State or locality where they may be, any of the rights secured to them by the first section of this act; and if any suit or prosecution, civil or criminal, has been or shall be commenced in any State Court against any such person, for any cause whatsoever, civil or military, or any other person, any arrest or imprisonment, trespass or wrong done or committed by virtue or under color of authority derived from this act, or the act establishing a Bureau for the relief of Freedmen and Refugees, and all acts amendatory thereof, or for refusing to do any act upon the ground that it would be inconsistent with this act, such defendant shall have the right to remove such cause for trial to the proper District or Circuit Court in the manner prescribed by an act relating to *Habeas Corpus*, and regulating judicial proceedings in certain cases, approved March 3, 1863, and all acts amendatory thereto. The jurisdiction in civil and criminal matters hereby conferred on the District and Circuit Courts of the United States, shall be exercised and enforced in conformity with the laws of the United States, so far as such laws are suitable to carry the same into effect; but in all cases where such laws are not adapted to the object, or are deficient in the provisions necessary to furnish suitable remedies and punish offenses against the law, the common law, as modified and changed by the Constitution and statutes of the State wherein the Court having jurisdiction of the cause, civil or criminal, is held, so far as the same is not inconsistent with the Constitution and laws of the United States, shall be extended, and govern said Courts in the trial and disposition of such cause; and, if of a criminal nature, in the infliction of punishment on the party found guilty.

Sec. 4. That the District Attorneys, Marshals and Deputy Marshals of the United States, the Commissioners approved by the Circuit and Territorial Courts of the United States, with power of arresting, imprisoning or bailing offenders against the laws of the United States, the officers and agents of the Freedmen's Bureau, and every other officer who may be especially empowered by the President of the United States, shall be and they are hereby specially authorized and required, at the expense of the United States, to institute proceedings against all and every person who shall violate the provisions of this act, and cause him or them to be arrested and imprisoned, or bailed, as the case may be, for trial before such of the United States or Territorial Courts as by this act has cognizance of the offense; and with a view to affording reasonable protection to all persons in their constitutional rights of equity before the law, without distinction of race, or color, or previous condition of slavery, or involuntary servitude, except as a punishment for crime, whereof the party shall have been duly convicted, and the prompt discharge of the duties of this act, it shall be the duty of the Circuit Courts of the United States, and the Superior Courts of the Territories of the United States, from time to time, to increase the number of Commissioners, so as to afford a speedy and convenient means for the arrest and examination of persons charged with a violation of this act.

Sec. 5. That said Commissioners shall have concurrent jurisdiction with the Judges of the Circuit and District Courts of the United States, and the Judges of the Superior Courts of the Territories, severally and collectively, in term time and vacation, upon satisfactory proof being made, to issue warrants and precepts for arresting and bringing before them all offenders against the provisions of this act, and, on examination, to discharge, admit to bail, or commit them for trial, as the facts may warrant.

Sec. 6. And such Commissioners are hereby authorized and required to exercise all the powers and duties conferred on them by this act, and the same duties with regard to the offenses created by this act as they are authorized by law to exercise with regard to other offenses against the laws of the United States. That it shall be the duty of the Marshals and Deputy-Marshals to obey and execute all warrants and precepts issued under the provisions of this act, when to them directed, and should any Marshal or Deputy-Marshal refuse to receive such warrant or process when tendered, or to use all proper means diligently to execute the same, he shall, on conviction thereof, be fined in the sum of one thousand dollars, to the use of the person upon whom the accused is alleged to have committed the offense; and the better to enable the Commissioners to execute their duties faithfully and efficiently, in conformity with the Constitution of the United States and the requirements of this act, they are hereby authorized and empowered, within their counties respectively, to appoint, in writing, under their hands, any one or more suitable persons from time to time, to execute all such warrants and other process as may be issued by them in the lawful performance of their respective duties, and the persons so appointed to execute any warrant or process as aforesaid shall have authority to summon and call to their aid the bystanders, or *posse comitatus* of the proper county, or such portion of the land or naval forces of the United States or of the militia as may be necessary to the performance of the duty with which they are charged, and to insure a faithful observance of the clause of the Constitution which prohibits Slavery in conformity with the provisions of this act; and said warrants shall run and be executed by said officers anywhere in the State or Territory within which they are issued.

Sec. 7. That any person who shall knowingly and wrongfully obstruct, hinder, or prevent any officer or other person charged with the execution of any warrant or process issued under the provisions of this act, or any person or persons lawfully assisting him or them, from arresting any person for whose apprehension such warrant or process may have been issued, or shall rescue or attempt to rescue such person from the custody of the officer, or person or persons, or those lawfully assisting as aforesaid when so arrested, pursuant to the authority herein given and declared, or shall aid, abet, or assist any person so arrested as aforesaid, directly or indirectly, to escape from the custody of the officer or other persons legally authorized as aforesaid, or shall harbor or conceal any person for whom a warrant or process shall have been issued as aforesaid, so as to prevent his discovery and arrest after notice or knowledge of the fact that a warrant has been issued for the apprehension of such person, shall, for either of said offences, be subject to a fine not exceeding $1,000 and imprisonment not exceeding six months, by indictment before the District Court of the United States for the district in which said offense may have been committed, or before the proper court of criminal jurisdiction, if committed within any one of the organized Territories of the United States.

Sec. 8. That the District Attorneys, the Marshals, their Deputies and the Clerks of the said District and Territorial Courts, shall be paid for their services the like fees as may be allowed to them for similar services in other cases, and in all cases where the proceedings are before a Commissioner he shall be entitled to a fee of $10 in full for his services in each case, inclusive of all services incident to such arrest and examination. The person or persons authorized to execute the process to be issued by such Commissioners for the arrest of offenders against the provisions of this act, shall be entitled to a fee of $5 for each person he or they may arrest and take before any such Commissioner as aforesaid, with such other fees as may be deemed reasonable for such Commissioner for such other additional services as may be necessarily performed by him or them—such as attending at the examination, keeping the prisoner in custody, and providing him with food and lodgings during his detention and until the final determination of such Commissioner, and in general for performing such other duties as may be required in the premises, such fees to be made up in conformity with the fees usually charged by the officers of the Court of Justice within the proper district or county as near as practicable, and paid out of the Treasury of the United States, on the certificate of the district within which the arrest is made, and to be recoverable from the defendant as part of the judgment in case of conviction.

Sec. 9. That whenever the President of the United States shall have reason to believe that offenses have been or are likely to be committed against the provisions of this act within any judicial district, it shall be lawful for him, in his discretion, to direct the Judge, Marshal and District Attorney of such district to attend at such place within the district, and for such time as he may designate, for the purpose of more speedy arrest and trial of persons charged with a violation of this act; and it shall be the duty of every Judge or other officer, when any such requisitions shall be received by him, to attend at the place and for the time therein designated.

Sec. 10. That it shall be lawful for the President of the United States, or such persons as he may empower for that purpose, to employ such part of the land or naval forces of the United States, or of the militia, as shall be necessary to prevent the violation and enforce the due execution of this act.

Sec. 11. That upon all questions of law, arising in any cause under the provisions of this act, a final appeal may be taken to the Supreme Court of the United States.

The President's communication in reference to Oaths of Office that were *not* taken in the Southern States, will meet with popular comment on one or two points. *First*, the President, with several of his Cabinet, frankly acknowledge that they have disobeyed a positive law of the land in appointing to office presupposed enemies of the Government who could not take the oath of loyalty. *Second*, it is averred that such disregard of the law was necessary to collect the revenue and run the mails. "No one," says the official dispatch, "could have regretted more than the President and Cabinet the necessity which existed for this course; but there seemed no alternative; and it was confidently hoped that, under the circumstances of the case, it would be approved by Congress." This looks like begging the question. The public will wonder, in view of the severe overstrain of several vetoes to prove the Freedmen's and Civil Rights bills unconstitutional, how it came to pass that the President himself could break so plain a law. But their surprise will not cease here. If it was necessary to modify the law in order to collect the revenue, why was not Congress at once summoned to do it?—*New York Tribune.*

VARIOUS ITEMS.

The Cholera—The Infected Steamer at Halifax.

A despatch from Halifax says that Captain Grace, of the steamship England, reports that on Tuesday the first case of cholera occurred, since which time one hundred and sixty more cases have broken out, and fifty deaths have occurred. She was ordered off by the government, but owing to the rapid spread of the disease, and the engineers being sick, it was found impossible to proceed. She now lies below the lighthouse. Part of the passengers will be placed on board the hospital ship, and shanties erected on the beach for the sick. There will be no communication with the ship. The authorities are doing all in their power to relieve the unfortunate passengers. There are three doctors on board to look after the sick. She has 1,202 passengers and 100 crew. The passengers are principally German and Irish. The captain thinks the disease was brought on board by the German passengers.

WHICH HAS CHANGED.—The world moves rapidly, but not so fast that the public has forgotten a letter from two outlaws at Montreal addressed "to Andrew "Johnson, President of the United States," which began as follows:

"Your proclamation is a living, burning lie, known to be such by yourself and all your surroundings, and all hired perjurers in Christendom shall not deter us from exhibiting to the civilized world your hellish plot to murder our Christian President. We recognized in many of your most distinguished generals men of honor, and we do not beleive their association even with you has so brutalized them as to prevent their doing justice to a public enemy under such grave charges."

This vigorous document was signed by George N. Sanders and Beverly Tucker, jointly accused by Mr. Johnson of sharing in the conspiracy to assassinate President Lincoln. The first of the two is in a debtor's prison in London; and has had no opportunity to express his opinons on the present political situation here. Beverly Tucker is out in a letter from Paris to a New York paper, in which he expresses his glee at the veto of the Freedmen's Bureau bill in these terms:

"The principles and spirit of this masterly Executive message commend themselves to the indorsement of every patriot within and every national man without the country. Private grievances, even though they have culminated in onerous and unjust exile, should be forgotten in admiration for the stupendous achievement that has crushed out as it were, at one blow, the purposes of a wicked party, seeking politically to oppress, and personally to degrade, the white people of eleven sovereign States! The cud of bitter disappointment must be chewed by those who were the authors of the awful warfare of sections that has deluged a land with blood, and made the graves of a moiety of a vast empire 'heave but as some passing waves.' They have sowed the whirlwind and they must reap the storm."

Mr. Tucker looks at the matter "as a Virginian," and thinks it is "a Christian duty to forgive" President Johnson's unwithdrawn accusation which still makes him an exile, on account of this official act which he regards as "a happy barbinger of a better spirit" in the councils of "the government at Washington."—*Boston Advertiser*.

SOUTHERN HABITS.—A letter from a Government officer says:

"I saw a white man in Raleigh a month ago who actually had fifty negro children, and one of them was the child of his negro daughter, thus actually being father and grandfather to the same child. This is thought nothing of here. In fact, in private conversation, "gentlemen" will acknowledge their relationship to the negro in the presence of their wives and daughters, without calling a blush upon their gentle Southern cheeks. They are so accustomed to have half-brothers among their slaves that it in no manner seems to affect their respect for their common father.

"The wife feels no disgrace or shame, and the husband, who has solemnly promised to be faithful to her, goes out and cohabits her negro house-maid, and the negro's and the wife's children grow up together. Relationship is known to the children, and as they grow up, incest is added to the noble young Southerner's crimes, and the child doubly a grandchild, is held up as an example of negro stupidity. It is equal to Aztec children, ain't it, I called at a lady's house last week, and of course she was introduced, and she related an anecdote of their house-maid's wedding. She said they were much interested in her, and dressed her as nice as a white bride, because she was *her niece*. Her young lady daughter was in the room, and two ladies visiting her. They thought nothing of it. What do you think."

THE WHEAT CROP.—The *Ohio Farmer* says: "Everywhere through the State—from the line at the north, within which the sound of the lashing waters of the lake is heard, to the sunnier fields and fatter soils of the valley which opens out upon the Ohio—we hear a fear expressed by the farmer for the fate of his wheat field. Scarce a shade of green is to be seen in the fields throughout the State—all are as crisp and gray as a clay meadow after the scorching heat and drouth of a burning dry summer—no kindly coating of snow has saved the tops from the rigor of the frost. We find few without fear that the extreme cold and exposure have proved fatal to the root, putting the plant past recuperation."

ANOTHER IRON MOLDERS' STRIKE.—The working men of Deloss Root & Co.'s foundry on South Delaware street, as also that of Charles Cox, are on a strike. The disagreement is stated to consist in the fact that the proprietors were interfering with certain rules adopted by the Founders' Union, and wanted their workmen to do away with the shop committees, one of the regulations adopted by the "Union," and intended to protect their organization. It is also stated that the proprietors wished to employ a number of apprentices and workmen who were not members of the Union. —*Indianapolis Journal, Monday*.

SPECIAL NOTICES.

AYER'S PILLS—Are you Sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague Remittent Fever Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by B. A. FAHNESTOCK'S SON & CO., and by all Druggists. mh16:2mM&wF

RETROUVEY'S TURKISH BANDOLENIAN HAIR TONIC. THE DRESSING AND RESTORER OF THE AGE TURKISH BANDOLENIAN.

RETROUVEY'S TURKISH BANDOLENIAN. What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion and keep it in place? This *Retrouvey's Turkish Bandolenian Hair Tonic* will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, in America—everywhere where the "Bandolenian" is known—it is pronounced the *ne plus ultra* of Hair Preparations. Remember, it is free from all metallic poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

FINANCE AND TRADE.

THURSDAY, April 12, 1866.

The new loan bill, which has passed both Houses and only awaits the President's signature to become a law, is of so much interest that we reproduce it with a prominence due to its importance:

An act to amend an act entitled an act to provide ways and means to support the Government, approved March 3, 1865.

Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That the act entitled an act to provide ways and means to support the Government, approved March 3, 1865, shall be extended and construed to authorize the Secretary of the Treasury, at his discretion, to receive any treasury notes or other obligations issued under any act of Congress, whether bearing interest or not, in exchange for any description of bonds authorized by the act to which this is an amendment, and also to dispose of any description of bonds authorized by said act, either in the United States or elsewhere, to such an amount, in such manner, and at such rates as he may think advisable, for lawful money of the United States, or for any treasury notes, certificates of indebtedness, or certificates of deposit, or other representatives of value which have been or may be issued under any act of Congress, the proceeds thereof to be issued only for retiring treasury notes, or other obligations issued under any act of Congress. But nothing herein contained shall be construed to authorize any increase of the public debt: provided, that of United States notes not more than ten million of dollars may be retired and cancelled within six months from the passage of this act, thereafter not more than four millions of dollars in one month. And provided, further, that the act to which this is an amendment shall continue in force in all its provisions except as modified by this act.

SEC. 2. *And be it further enacted*, That the Secretary of the Treasury shall report to Congress at the commencement of the next session the amount of exchange made or money borrowed under this act, and of whom, and on what terms, and also the amount and character of indebtedness retired under this act and the act to which this is an amendment, with a detailed statement of the expense of making such loans and exchange.

—The Cincinnati *Commercial*, of Wednesday, comments on the loan bill as follows:

"Congress has at last passed the Loan bill. There is scarcely a doubt of its receiving the signature of the President. Its practical use, in the hands of the Secretary of the Treasury, will be looked for with some interest; yet it cannot but be admitted that the apprehensions of terrible effects, which many have pretended to entertain, have no reasonable foundation—the less so, now, since a very emphatic bar is placed in the way of a rapid retiring of legal tender notes. The objections to investing the Secretary with large discretionary power, so far as they were based on the danger of setting bad precedents, were rightly taken, and ought to have had some need in the way of a better substitute. As the matter stands, however, we doubt whether there is the least occasion for fear that the Secretary will, even if he can, inaugurate radical disturbing changes in the financial situation."

—The following shows the exports (exclusive of specie) from New York to foreign ports for the week ending April 10, and since January 1:

	1864.	1865.	1866.
For the week	$3,181,888	$1,613,293	$6,069,510
Prev. Reported	42,735,973	56,388,544	60,872,431
Since Jan. 1	$45,917,861	$58,001,837	$66,941,991
Price of gold	175	146	126

—The New York *Tribune*, of April 11, says:

"The passage of the loan bill should make all debtors cautious, and stimulate them to every possible effort in the way of liquidation. The Secretary, under the financial bills now in force, has ample power to contract the currency, and place the Government finances in order. He can sell new bonds, or exchange short currency debt for long ones, and make terms which will attract to his use the loanable capital of the commercial world. He is not allowed, to be sure, to cancel the legal tenders, but he is not prohibited from withholding them from circulation, a process as dangerous to expanded banks and extended bankers as their destruction would be. The Secretary means specie payment as soon as they can be reasonably brought about, and this fact cannot be too often brought to the notice of parties desirous of running into debt upon a debased currency, sure to be speedily improved at the cost of debtors. The abundance of money seeking employment on call at low rates, is the sure evidence of stagnation in the business of the country. It shows that the unhealthy activity produced by the Rebellion and the consequent issue of hundreds of millions of irredeemable paper money, is being superseded by the moderate movements such as mark the era of peace. The Secretaries of the Army and Navy have got rid of the machinery of war in their Departments, and it only remains for the Secretary of the Treasury to do his duty. The flood of paper-money which maintained the army and navy has performed its task, and the sooner every dollar of it not redeemable in gold is put out of commission, along with the iron-clads, the better."

Finance and Trade in New York.

STOCKS AND MONEY.

NEW YORK, April 12.—The market has a slight reaction from the extreme activity of yesterday, but without any change, except upon the Miscellaneous list, which is generally lower. On the Railroad list the cliques are generally quiescent. The bears are timid and do not venture to put any shorts against the strong combinations for high prices. Gold closed at 127¼. Exchange lower at 107¾. Money easy at 6 per cent.

At four o'clock call the following were the principal sales: Canton Company, 55½; New York Central, 92¾; Erie, 74¼; Hudson, Ex-Dividend, 110¼; Reading, 103; Michigan Southern, 80¾; Cleveland and Pittsburgh, 80¾; Cleveland and Toledo, 111¾; Chicago and Rock Island, Ex-Dividend, 119¾; Gold 127¼.

The business at the office of the Assistant Treasurer to-day was as follows: Total receipts, $745,720 68; of which $58,000 were for customs, and on account of loan $10,000; Gold notes $54,000, payments, $465,017 43; balance, $[illegible],226,364.

COAL TRADE.

The increased activity in the coal trade is operating favorably in the value of coal stocks. The large additional number of steam vessels entering the ports has materially augmented the demand for coal from the Cumberland fields, and some companies have orders in advance of the current supply. The virtual suspension from Nova Scotia, the abrogation of the Reciprocity treaty, coal from the Provinces being now subject to a duty of $1,50 per ton, has added materially to the demand at our own mines, and for a moment enable producers to get higher prices for their products than they otherwise could. The transportation of coal on the Delaware, Lackawanna and Western Railroad for the expired portion of the year is 313,364 tons against 206,960 tons for the same period of last year, an increase of 50 per cent.

In the Lehigh Valley Company, the coal traffic for the same period amounts to 525,923 tons, against 466,275 tons last year. This improved condition of affairs has produced an increased demand for the shares of coal companies represented in this market, with a consequent advance in prices. Cumberland Coal has been active during the week, but is dull this morning, closing at 45.

DRY GOODS AND CARPETS.

The following is the report from the New York Dry Goods Exchange, jobbers' prices: The market to-day is dull, and looks as though it might go much lower. Brown sheetings, and shirtings, and prints are weak, and bleached goods are also losing their strength, and many buyers think they will go lower. Imported goods are quiet and holders are waiting for offers for them. Black silks are weaker than they have been during the whole season.

Carpets are much higher than they should be—so say buyers. Hoop Skirts, notions and fancy goods must come down, if what large and prominent buyers say is correct. It looks as if buyers had made up their minds to control the markets. If they cannot get goods at what in their judgment they think the right prices, they buy but little, with the determination to wait until they get them lower.

The Wheat Crop.

The following, from the *Ohio Farmer*, is the dark side of the picture. We suggest that judgment be suspended until the sunshine and rains have had an opportunity to test their powers of recuperation on the root of the wheat plant. The *Farmer* says:

Everywhere through the State—from the line at the north, within which the sound of the lashing waters of the lake is heard, to the sunnier fields and fatter soils of the valley which opens out upon the Ohio—we hear a fear expressed by the farmer for the fate of his wheat field. Scarce a shade of green is to be seen in the fields throughout the State; all are as crisp and gray as a clay meadow after the scorching heat and drought of a burning dry summer—no kindly coating of snow has saved the tops from the rigor of the frost. We find few without fear that the extreme cold and exposure have proved fatal to the root, putting the plant past recuperation.

Chicago Market.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, April 12, 1866.

There is a little more life and activity manifested in the produce markets, but as the demand is wholly of a local character, the transactions generally, are of an unimportant character.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, April 12, 1866.

CRUDE—The market for Crude was unusually brisk to-day, the reported sales in the aggregate exceeding eleven thousand barrels, mostly for future delivery, while prices have undergone no quotable change. Sales of 1500 bbls (40 to 45 gravity) on the spot, at 12½; 1000 do do, at 12¾; 400 ditto, at 12½; 1200 ditto, at 12; 100 ditto, at 13; 150 (38 to 41 gravity) at 13½; 550 do, at 13; 174 ditto, at 13; 6000, for May delivery, at 13; and 1000, to be delivered in Philadelphia between the 15th and 30th of May, at 24¾, packages included. As a matter of course, these large sales imparted a little more tone to the market, but, as yet, prices are not quotably higher. Telegrams from Oil City to-day, report Crude dull at that point, at $4 to $4¼ per barrel.

REFINED—There was also more inquiry for Refined, and while the transactions were larger than during any preceding day this week, prices, as yet, have undergone no quotable change. Sale of 2000 bbls light straw to white, delivered in Philadelphia any time this month, at the option of the seller, at 38; 2000 bbls prime standard white, to be delivered in Philadelphia between the 1st and 15th of May, buyers' option, at 40½; and 2000 bbls—on Wednesday evening—1st to 15th of June, at 39½. There were no sales for July or August, and in the absence of which, we omit quotations. Free Oil is dull and entirely nominal.

ARRIVALS—The arrivals of oil by river are beginning to fall off considerably. The arrivals reported to-day were as follows:

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, April 12, 1866.

CATTLE—There was an improved demand for Cattle this week, and with a short supply and light arrivals, the market ruled firm, and prices may be quoted a shade higher, as compared with last week. The attendance of buyers was considerably larger than for several weeks past, including quite a number from Philadelphia, but the extreme views of holders had a tendency to retard operations. Prime fat Cattle sold at from 7¼ to 7½, and extra would doubtless have sold readily at 8. The demand for stockers is very light, and the offerings of this particular grade of Cattle have been limited for some time, as farmers and drovers both appear to have discovered that light cows and steers will scarcely bring enough to pay feed bills and transportation.

SHEEP—Under the influence of increased arrivals and unfavorable advices from Philadelphia, the market for Sheep, although fairly active, was not as brisk as last week, and prices are from ¼@½ of a cent per pound lower. As will be seen by reference to the sales, prices ranged from 4½ to 6¼ cents per pound gross, for shorn and wooled, according to quality and condition.

HOGS—Demand fair and market steady, although prices are a shade lower, as compared with last week. We now quote fair to good averages at 9@9½, gross. The arrivals continue light, and the great proportion of those being shipped to market now are very light, ranging from one hundred and fifty to two hundred pounds.

(From the Commercial List, April 11.)

Coffee—The market continues quiet for all descriptions, prime and choice qualities only being in much request, but the scarcity of these precludes business of any magnitude. RIVER NEWS.

ARRIVALS.

Bayard	Moore	Parkersburg.
Urilda	Saint	Oil City.
Julia No. 2	Coulson	Zanesville.
Peerless	Russell	Oil City.

DEPARTURES.

Financier	Darragh	New Orleans.
Argonaut No. 2	Richmond	Cincinnati.
Bayard	Moore	Parkersburg.
Leclaire	Kelly	Oil City.

RIVER, WEATHER, ETC.

The river continues to recede steadily at this point, though, as yet, there is plenty of water for steamboating. The weather continues clear and pleasant, and very favorable for business, which, we regret to say, is not very active.

There has not been a single transient arrival, aside from the regular packets. The Nora, from Cincinnati, and the Kate Putnam, from St. Louis, are among the first due. The Julia, from Zanesville, and the Leni Leoti, from Parkersburg, were due last night, and will doubtless be found in port this morning.

The Argonaut, for St. Louis, and the Financier, for New Orleans, left last evening. The latter boat had a very good load, having filled yesterday and the day before with Cincinnati freight. The Argonaut also had an excellent trip, including a large number of passengers.

The Allegheny river is getting pretty shallow, and unless we have rain soon, steamers will be compelled to tie up shortly. Telegrams from Oil City to-day report but thirty-two inches at that point and falling. The Urilda and Peerless arrived, and the Leclaire departed.

The Importer, Capt. Noss, is filling up rapidly for St. Louis, and will doubtless be ready to take her departure on Saturday evening. She has excellent accommodations for passengers.

The Delaware, Capt. R. W. Harton, is next on the list for the Upper Mississippi, and will be ready to take her departure on Saturday.

The Kate Robinson, Capt. Robt. Robinson, is filling up slowly for Missouri River. She will be followed by the Nile, Captain W. B. Haslett.

The Silver Lake No. 4, Minnesota and Dan Hine, arrived at St. Louis from Pittsburgh on Tuesday last.

The Louisville *Courier*, of Tuesday, contains the following items:

The tow-boats Alps and Mary T. both ascended the falls yesterday morning, en route for Pittsburgh. Each had a fleet of empty barges in tow, which were warped up through the canal. The Argosy arrived from New Orleans yesterday with a cargo of Turk's Island salt, some 2,500 bags, for this market. That, we believe, is the first receipt of foreign salt from that quarter since the war. In former times the bulk of our Liverpool and Turk's Island salt came in via New Orleans.

The tow-boat Wild Cat came in from Pittsburgh yesterday with a moderate tow of coal, and the Sam Roberts was over due.

The Reindeer is due from Pittsburgh with a heavy tow of coal. She started in company with the Wild Cat, the pair having 174,000 bush of coal.

The Citizen (says the Cincinnati *Gazette*, of Wednesday,) arrived from Pittsburgh yesterday morning with a full trip for the Upper Mississippi, whither she started in the evening without receiving or discharging any freight here.

All Diseases of the Lungs

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP.

PITTSBURGH, January 11, 1866.

DR. KEYSER—My wife has been afflicted with a bad cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought, the first time, a fifty cent bottle, which relieved her very much; I then went and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself for a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this, if you desire [illegible].
WM. WILSON,
Alderman Fifth Ward.

PITTSBURGH, April 28, 1865.

READ THE TRUTH.—DR. KEYSER:—I have a daughter who has taken several medicines for a bad cough without benefit, among them Ayer's Cherry Pectoral. I purchased from you a bottle of your Pectoral Syrup, and before she had used half of it she was relieved. The second bottle cured her entirely of her cough.
JOHN PARIS,
Robinson street, Allegheny.

PITTSBURGH, December 21, 1865.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP.—I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I feel that I ought to let the afflicted know of this valuable remedy, who may suffer [illegible] as I have done in my life.
JOHN C. LITTLE.
Witness: R. M. KEER, Peebles township.

PATTON TOWNSHIP, April 14, 1865.

A WONDERFUL CURE.—Some time ago a neighbor of mine was very ill with a lung affection which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Pectoral Syrup, which I gave him, and it entirely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life.
JOHN McGINNIS.

DR. KEYSER'S PECTORAL SYRUP IN BLAIRSVILLE.—Please send me another supply of your valuable Pectoral Syrup. Almost everybody around us has the cold, and are enquiring for "Dr. Keyser's Pectoral Syrup." We have sold sixteen bottles the last week, and are now entirely out. Mr. A. Alter and Mr. F. Maher, both of Blairsville, Pa., told us they would not be without it in their families. In fact, all who use it once want it again.
Yours, respectfully,
J. S. WATTERSON & SONS.
January 30, 1866.

PITTSBURGH, November 15, 1865.

DR. KEYSER—Although not an advocate of Patent Medicines, in general, it affords me pleasure to recommend your PECTORAL SYRUP. As a medicine, it is well worthy the attention of any person who may in any manner be afflicted with coughs, colds and hoarseness of any kind, and for the peculiar qualifications for removing that disagreeable sensation attending a severe cold. I have been, more or less from my life, affected with the severest of colds and hoarseness. At times my throat would become so closed as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup it would relieve me entirely. In recommending this medicine, I must unhesitatingly say that it is the best remedy I ever tried, purporting to cure the above, nor should any family be without this remedy for the diseases prevalent.
Yours, most respectfully,
EDWARD J. JONES,
Cashier Citizens' Deposit Bank.

STEUBENVILLE, Ohio, March 14, 1865.

I have used Dr. Keyser's Cough Syrup for a bad cough of several years standing, and can cheerfully say it is the best medicine for the same that I have ever taken.
J. W. PRICE.

COL. PRATT AND DR. KEYSER'S PECTORAL SYRUP.—Dr. Keyser—Dear Sir: I take the pleasure of my acknowledging the excellence of your Pectoral Cough Syrup [illegible]
